

## **Welcome to Kingsfoil Integrative Veterinary Care!**

We look forward to spending time with you and your pet on their path toward optimal health and healing.

Below are answers to some common questions about our practice so that we may better serve you.

### **Services**

Our focus at Kingsfoil is specific to helping your pet through nutritional strategies and acupuncture. We may also make recommendations for herbal or other holistic support therapies. These modalities are integrative to the care that your pet is receiving from their primary veterinarian. We ask that you visit your primary veterinarian for annual exams, vaccinations (we do offer limited vaccine titer testing), diagnostic imaging and other medical care. We do offer some conventional as well as unique diagnostic tests that align with our holistic nutritional approach (such as Hair Tissue Mineral Analysis, etc.).

### **Appointments**

We are here for you and your pet during your scheduled appointment time and pledge to be timely. We respect the valuable time of all of our clients and ask that if you cannot make your appointment to please notify us immediately. We reserve the right to charge for appointments cancelled or broken without giving a 24-hour notice.

### **Emergency Care**

If your pet is in need of emergency care, we ask that you call your closest animal emergency hospital. There are four veterinary emergency clinics in the greater Colorado Springs area:

- o Animal ER Care in central Colorado Springs: 719.260.7141
- o Uintah Pet Emergency in west Colorado Springs: 719.633.3214
- o Tri-Lakes Animal Emergency Care in Monument: 719.434.1118
- o Powers Pet Emergency & Specialty in north/central Colorado Springs: 719.473.0482

### **End of Life Transitions**

We request that you contact your primary care veterinarian for end of life assistance. We can also direct you to compassionate home euthanasia veterinarians in the area. This service is unavailable at Kingsfoil.

### **Fees and Payments**

Payment is due at the time of service.

### **Holistic Visits**

We believe in the benefits of proactive care and in addressing your pet's whole-body health on an ongoing basis. This is a different approach than just treating symptoms. We strive to make recommendations that best suit the needs of your individual pet and lifestyle. The decision to accept these recommendations is up to you. We reserve the right at any time to refer you to a general practice or specialty veterinarian if we feel your pet's care is outside our scope.

We look forward to getting to know you and your fur baby!
